Awesome face jug with hands on both sides of his face and a snake going across his back and around his right hand. Very unique lamp!!!. Heavily-detailed... Comes with shade (not shown) jug is 5.5" tall\$175.00

These are large lamps with more scarier faces than the ones on the first pages. They are awesomely detailed and have beautiful glazes. They are my own design. You will not see anything like them anywhere else. They come with a shade and a great price.....\$175.00 each

(more pictures of each jug are available for viewing....just contact me at ammerdl@hotmail.com or call me at 803-261-9319 and I will e-mail more shots of the lamp you are interested in.
